Rejected cases.—Outside of the returns which are tabulated in this bulletin, there were 3,649 other persons in Georgia for whom there was some indication, either on the unemployment schedule or on the population schedule, that they were not at work the day before the enumerator called. These cases were rejected in the regular tabulation for various reasons. The principal reasons, and the number of cases rejected under each reason, are as follows:

- a. Not a gainful worker, 576. These were cases for which no gainful occupation was returned on the population schedule.
- b. Retired, 86. These persons were either definitely returned as retired, or were over 70 years old and had been idle for a period of several years.
- c. Permanently disabled, 182. These were persons for whom there was some entry indicating permanent disability, or who were sick or injured and idle for a period of several years.
- d. Unpaid family worker, 869. These were persons who had been working for members of their own families without money compensation.
- e. Legal holiday or rest day, 23. These were persons regularly employed but erroneously returned on the unemployment schedule because a legal holiday or their usual weekly "rest day" occurred on the day before the call of the enumerator.
- f. Seeking first job, 8. These were persons just out of school who had never been regularly employed.
- g. Attending school, 32. These were persons who had left their regular employment in order to go to school or college.
- h. Omitted entries, 1,764. This is the most numerous group of rejected cases. These were cases for which there was an answer on the population schedule indicating unemployment, but no entry whatever on the unemployment schedule.
- i. Other reasons, 109. In this group were placed all other unemployment returns made contrary to the instructions given to the enumerator.
