GEORGIA

**U.S. Department of Commerce
BUREAU OF THE CENSUS**

SUMMARY OF FINDINGS

In 1977, 484.7 thousand persons were employed in Georgia's manufacturing establishments. This figure represented an increase of 4 percent from the 1972 figure of 467.5 thousand workers.

The total value added by manufacture for the State amounted to \$12,549 million in 1977, an increase of approximately 70 percent from the 1972 figure of \$7,386 million. All dollar figures in this report are in current dollars and are, therefore, not adjusted for changes in price levels.

In the State, the most important industry groups ranked by employment were textile mill products, apparel and other textile products, food and kindred products, and transportation equipment. They accounted for approximately 56 percent of the State's 1977 employment. These same industry groups were in the forefront for 1972 when they accounted for approximately 57 percent of the State's employment.

The most important counties in the State ranked by employment were Fulton, De Kalb, Whitfield, and Columbus. They accounted for approximately 25 percent of the State's 1977 manufacturing employment. The order has shifted from 1972 when Fulton, De Kalb, Whitfield, and Cobb accounted for approximately 26 percent of the State's employment.

The methods of data collection and use of administrative records data are discussed in detail in the Introduction. Small single-unit companies with up to 20 employees (the cutoff varied by industry) were excluded from the mail portion of the census. For these establishments (and a small number of larger establishments whose reports were not received in time to be tabulated), statistics on payrolls and receipts were obtained from administrative records of other government agencies. Other statistics were developed from industry averages. For this State, these establishments accounted for 4 percent of the total value of shipments.

(NA) Not available.

¹In annual survey of manufactures (ASM) years, data are estimates based on a representative sample of establishments canvassed annually and may differ from results of a complete canvass of all establishments. ASM publication shows percentage standard errors. Unless otherwise noted, for data prior to 1963, see 1963 Census of Manufactures, vol. III, table 1 of State chapter.

²Including central administrative offices and auxiliaries (for definition, see appendix B).

³Aggregate of cost of materials and value of shipments for industry groups (2- and 3-digit) and for all manufacturing industries includes extensive duplication, since products of some industries are used as materials by others (see appendix B).

Table 2b. Selected Operating Ratios for the State and Selected Standard Metropolitan Statistical Areas: 1977 and Earlier Years

(Includes SCSA's and SMSA's with 40,000 manufacturing employees or more. For definitions of SCSA's and SMSA's, see appendix A. For explanation of terms, see appendix B)

Year ¹	Payroll per employee (dollars)	Production worker as percent of total employment (percent)	Annual hours of production workers (number)	Average hourly earnings of production workers (dollars)	Cost of materials as percent of value of shipments (percent)	Cost of payroll as percent of value of shipments (percent)	Value added per employee (dollars)	Payroll as percent of value added (percent)	Value added per production worker hour (dollars)

Table 3a. Summary Statistics for the State: 1977 and 1972

[For explanation of terms, see appendix B]

Item	Unit of measure	1977	1972
All establishments ¹	number	8 623	7 627
With 1 to 19 employees	do	5 717	4 964
With 20 to 99 employees	do	1 783	1 594
With 100 employees or more	do	1 123	1 069
All employees, average for year ¹	1,000	484.7	467.2
Payroll for year, all employees ¹	mil. dollars	5 124.5	3 329.9
Production workers:			
Average for year	1,000	376.2	368.4
March	do	369.3	361.4
May	do	376.6	364.0
August	do	378.1	372.0
November	do	380.1	376.1
Hours	millions	740.6	737.2
January to March	do	178.7	179.7
April to June	do	188.9	186.4
July to September	do	185.3	183.2
October to December	do	187.6	188.0
Wages	mil. dollars	3 404.4	2 240.9
Cost of materials, etc. ²	do	20 365.4	11 014.3
Materials, parts, containers, etc., consumed	do	18 323.5	10 098.4
Resales	do	863.4	376.3
Fuels consumed	do	380.3	125.3
Purchased electric energy	do	374.3	127.4
Contract work	do	423.9	286.8
Value of shipments, including resales ²	do	32 856.4	18 369.4
Value of resales	do	889.7	468.9
Value added by manufacture	do	12 548.8	7 369.7
Manufacturers' inventories:			
Beginning of year	do	3 674.7	2 117.9
Finished products	do	1 233.8	740.6
Work in process	do	1 005.5	539.3
Materials, supplies, fuel, etc.	do	1 435.4	837.6
End of year	do	3 903.4	2 121.1
Finished products	do	1 311.2	761.8
Work in process	do	987.5	509.8
Materials, supplies, fuel, etc.	do	1 604.8	849.5
Capital expenditures for plant and equipment	do	1 207.3	714.6
New capital expenditures	do	1 143.4	687.7
New buildings and other structures	do	171.6	143.8
New machinery and equipment	do	971.8	544.0
Used capital expenditures	do	63.9	26.9

- Represents zero. (D) Withheld to avoid disclosing operations of individual companies.

¹Including central administrative offices and auxiliaries (for definition, see appendix B).

²Aggregate of cost of materials and value of shipments for industry groups (2- and 3-digit) and for all manufacturing industries includes extensive duplication, since products of some industries are used as materials by others (see appendix B).

Table 3b. Supplemental State Statistics Based on Sample Estimates: 1977

[For explanation of terms, see appendix B. For description of annual survey of manufactures (ASM), see appendix F]

Item	Amount (million dollars)	Standard error of estimate (percent)	Item	Amount (million dollars)	Standard error of estimate (percent)
Gross value of depreciable assets:			Rental payments:		
Total:			Total.....	145.0	4
Beginning of year.....	8,843.7	1	Buildings and other structures.....	56.6	5
New capital expenditures.....	1,130.6	2	Machinery and equipment.....	88.2	6
Used capital expenditures.....	84.6	12	Depreciation charges during 1977:		
Retirements.....	290.4	3	Total.....	584.3	1
End of year.....	9,768.5	1	Buildings and other structures.....	94.0	2
Buildings and other structures:			Machinery and equipment.....	490.3	1
Beginning of year.....	2,203.3	1	Supplemental labor costs:		
New capital expenditures.....	168.3	5	Total.....	858.5	1
Used capital expenditures.....	(30.0)	26	Legal costs.....	378.8	1
Retirements.....	45.8	12	Voluntary costs.....	479.7	1
End of year.....	2,355.8	1	Purchased services:		
Machinery and equipment:			Cost of purchased services for the repair of--		
Beginning of year.....	6,641.0	1	Buildings and other structures.....	38.4	13
New capital expenditures.....	962.3	2	Response coverage ratio (percent).....	57	(X)
Automobiles, trucks, etc., for highway use...	31.0	NA	Machinery.....	(221.1)	(A)
Computers and peripheral data processing equip.	10.5	NA	Response coverage ratio (percent).....	59	(X)
All other.....	790.5	NA	Cost of purchased communication services.....	(48.6)	(A)
New machinery and equipment, n.s.k.....	130.4	NA	Response coverage ratio (percent).....	61	(X)
Used capital expenditures.....	54.5	10			
Retirements.....	244.8	8			
End of year.....	7,413.1	1			

Note: Expenditures data, shown in tables 2a, 3a, and 4-8, are census universe figures and may differ from ASM sample estimates shown in this table. Table 3b figures represents best estimate of year-to-year change as measured by continuing ASM sample, but are subject to sample errors. Hence, as estimates of level, they are not as reliable as universe figures.

A) Indicates standard errors of 100 percent or more. Figures in parentheses have standard errors of 15 percent or more.

NA = Not available. n.s.k. Not specified by kind. X = Not applicable.

Table 4. All Manufacturing Statistics for the State, Standard Metropolitan Statistical Areas, Counties, and Selected Cities: 1977 and 1972

[Includes cities with 450 manufacturing employees or more. For definitions of SCSA's and SMSA's, see appendix A. For explanation of terms, see appendix B]

MANUFACTURES—GEOGRAPHIC AREA SERIES

Table 4. All Manufacturing Statistics for the State, Standard Metropolitan Statistical Areas, Counties, and Selected Cities: 1977 and 1972—Con.

[Includes cities with 450 manufacturing employees or more. For definitions of SCSA's and SMSA's, see appendix A. For explanation of terms, see appendix B.]

Geographic area	1977											1972		
	All establishments ²		All employees ²		Production workers			Value added by manufacture (million dollars)	Cost of materials ³ (million dollars)	Value of shipments ³ (million dollars)	New capital expenditures (million dollars)	All employees ² (1,000)	Value added by manufacturer (million dollars)	
	Total (no.)	With 20 employees or more (no.)	Number (1,000)	Payroll (million dollars)	Number (1,000)	Hours (millions)	Wages (million dollars)

(D) Withheld to avoid disclosing operations of individual companies. (NA) Not available. (Z) Less than 50 thousand dollars or hours; under 50 employees.

¹Payroll and sales data for small single-unit companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate the balance of items shown for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at time data were tabulated. The following symbols are shown where estimated data based on administrative records data account for 10 percent or more of figures shown: E1—10 to 19 percent; E2—20 to 29 percent; E3—30 to 39 percent; E4—40 to 49 percent; E5—50 to 59 percent; E6—60 to 69 percent; E7—70 to 79 percent; E8—80 to 89 percent; E9—90 to 99 percent; E10—100 percent.

²Including central administrative offices and auxiliaries (for definition, see appendix B).

³Aggregate of cost of materials and value of shipments for industry groups (2- and 3-digit) and for all manufacturing industries includes extensive duplication, since products of some industries are used as materials by others (see appendix B).

Table 5. Statistics by Selected Industry Group and Industry for the State: 1977 and 1972

(Includes industry groups and industries with 150 employees or more. For explanation of terms, see appendix B.)

-	Administrative and auxiliary	-	281	101	14.4	268.0	-	-	-	-	-	-	-	(NA)	(NA)

Note: "All industries" level includes data on number of establishments, total employment, and total payroll for central administrative offices and auxiliaries (for definition, see appendix B).

¹Represents zero. ^(D) Withheld to avoid disclosing operations of individual companies. ^(NA) Not available. ^(Z) Less than 50 thousand dollars or hours; under 50 employees.

²Payroll and sales data for small single-unit companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate the balance of items shown for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at time data were tabulated. The following symbols are shown for those industry groups and industries where estimated data based on administrative records data account for 10 percent or more of figures shown: E1—10 to 19 percent; E2—20 to 29 percent; E3—30 to 39 percent; E4—40 to 49 percent; E5—50 to 59 percent; E6—60 to 69 percent; E7—70 to 79 percent; E8—80 to 89 percent; E9—90 to 99 percent; E0—100 percent.

³Statistics for some industry groups and industries are withheld to avoid disclosing figures for individual companies. However, for such industry groups and industries with 150 employees or more, number of establishments is shown and employment size range is indicated by one of the following symbols: AA—150 to 249 employees; BB—250 to 499 employees; CC—500 to 999 employees; EE—1,000 to 2,499 employees; FF—2,500 employees or more. Statistics for industry groups shown include data for all component industries, regardless of whether data are shown for individual industries in the group.

⁴Aggregate of cost of materials and value of shipments for industry groups (2- and 3-digit) and for all manufacturing industries includes extensive duplication, since products of some industries are used as materials by others (see appendix B).

Table 6. Statistics by Selected Industry Group and Industry for Standard Metropolitan Statistical Areas: 1977 and 1972

[Includes industry groups and industries with 250 employees or more within SCSA's and SMSA's, except those that would disclose operations of individual companies. For definitions of SCSA's and SMSA's, see appendix A. For explanation of terms, see appendix B]

--	Administrative and auxiliary--	-	13	6	0.8	13.4	-	-	-	-	-	-	-	(NA)	(NA)

Note: "All industries" level includes data on number of establishments, total employment, and total payroll for central administrative offices and auxiliaries (for definition, see appendix B).

- Represents zero. (D) Withheld to avoid disclosing operations of individual companies. (NA) Not available. (S) Withheld because estimate did not meet publication standards.

(Z) Less than 50 thousand dollars or hours; under 50 employees.

¹Payroll and sales data for small single-unit companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate the balance of items shown for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at time data were tabulated. The following symbols are shown for those States where estimated data based on administrative records data account for 10 percent or more of figures shown: E1—10 to 19 percent; E2—20 to 29 percent; E3—30 to 39 percent; E4—40 to 49 percent; E5—50 to 59 percent; E6—60 to 69 percent; E7—70 to 79 percent; E8—80 to 89 percent; E9—90 to 99 percent; E0—100 percent.

²Aggregate of cost of materials and value of shipments for industry groups (2- and 3-digit) and for all manufacturing industries includes extensive duplication, since products of some industries are used as materials by others (see appendix B).

Table 7. Statistics by Selected Industry Group and Industry for Selected Counties: 1977 and 1972

[Includes counties with 450 employees or more and industry groups and industries with 450 employees or more within counties, except those that would disclose operations of individual companies. For explanation of terms, see appendix B.]

	Columbus (Independent city) (See table 6.)												

Note: "County" level includes data on number of establishments, total employment, and total payroll for central administrative offices and auxiliaries (for definition, see appendix B).

- Represents zero. (D) Withheld to avoid disclosing operations of individual companies. (NA) Not available. (Z) Less than 50 thousand dollars or hours; under 50 employees.

¹Payroll and sales data for small single-unit companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate the balance of items shown for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at time data were tabulated. The following symbols are shown for those States where estimated data based on administrative records data account for 10 percent or more of figures shown: E1—10 to 19 percent; E2—20 to 29 percent; E3—30 to 39 percent; E4—40 to 49 percent; E5—50 to 59 percent; E6—60 to 69 percent; E7—70 to 79 percent; E8—80 to 89 percent; E9—90 to 99 percent; E0—100 percent.

²Aggregate of cost of materials and value of shipments for industry groups (2- and 3-digit) and for all manufacturing industries includes extensive duplication, since products of some industries are used as materials by others (see appendix B).

Table 8. Statistics by Selected Industry Group and Industry for Selected Cities: 1977 and 1972

[Includes cities with 450 employees or more and industry groups and industries with 450 employees or more within cities, except those that would disclose operations of individual companies. For explanation of terms, see appendix B]

Note: "City" level includes data on number of establishments, total employment, and total payroll for central administrative offices and auxiliaries (for definition, see appendix B).

- Represents zero. (D) Withheld to avoid disclosing operations of individual companies. (NA) Not available. (Z) Less than 50 thousand dollars or hours; under 50 employees.

¹Payroll and sales data for small single-unit companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate the balance of items shown for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at time data were tabulated. The following symbols are shown for those industry groups and industries where estimated data based on administrative records data account for 10 percent or more of figures shown: E1—10 to 19 percent; E2—20 to 29 percent; E3—30 to 39 percent; E4—40 to 49 percent; E5—50 to 59 percent; E6—60 to 69 percent; E7—70 to 79 percent; E8—80 to 89 percent; E9—90 to 99 percent; E0—100 percent.

²Aggregate of cost of materials and value of shipments for industry groups (2- and 3-digit) and for all manufacturing industries includes extensive duplication, since products of some industries are used as materials by others (see appendix B).

Table 9. Distribution of Establishments by Employment Size and Major Industry Group for the State and Counties: 1977

(Major groups descriptions are: 20--food and kindred products; 21--tobacco manufactures; 22--textile mill products; 23--apparel and other textile products; 24--lumber and wood products; 25--furniture and fixtures; 26--paper and allied products; 27--printing; 28--chemicals and allied products; 29--petroleum and coal products; 30--rubber and miscellaneous plastics products; 31--leather and leather products; 32--stone, clay, and glass products; 33--primary metal industries; 34--fabricated metal products; 35--machinery, except electrical; 36--electric and electronic equipment; 37--transportation equipment; 38--instruments and related products; 39--miscellaneous manufacturing industries. For explanation of terms, see Appendix B.)
