

By the following extract from a report made to the House of Representatives on the 6th inst. by the Committee on Indian Affairs, we are encouraged to hope that our collisions about the matter will forthwith be adjusted, and Georgia shortly put in quiet possession of all the land within her boundaries.

"The Committee recommend that a further sum of \$50,000 be made and placed at the discretion of the President, to aid such other Indians as may be disposed to emigrate to the west of the Mississippi; and that the President be authorized and empowered, out of said last mentioned appropriation, to extinguish the title of the Cherokee Indians to any land within the limits of the State of Georgia, at any time when he may be able so to do "upon peaceable and reasonable terms." This the United States are bound, by compact with the State of Georgia, to do; and the Committee are of opinion, that the United States are bound in good faith to the citizens of Georgia, to hold themselves in readiness at all times to fulfil said engagement.—They therefore recommend the aforesaid appropriation as applicable to that object, and to aid the said Cherokee Indians, and such other Indians as may be disposed to emigrate as aforesaid. The Committee beg leave to refer to a report made by them to the House of Representatives during the present session, (No. 67,) which is intimately connected with this subject; and also to certain resolutions of the Legislature of the State of Georgia, and a report of a Committee of that body, as contained in document No. 132, which was referred to the Committee on Indian Affairs, and which is calculated to explain the necessity of this appropriation.—The Committee therefore submit the following resolution—

Resolved, That the sum of \$25,124 be appropriated for the objects specified in the estimates from the Treasury department, marked 'submitted,' and that \$50,000 be appropriated for the aid of the Creek Indians in their removal west of the Mississippi; and the further sum of \$50,000 to enable the President of the United States to extinguish the title of the Cherokee Indians, when it can be done upon "peaceable and reasonable terms," and to aid said Cherokees, and such other Indians as may be disposed, to emigrate west of the Mississippi."
