

*Congressional.*—In the House of Representatives, January 12th, the following resolution, submitted on the 5th inst. by Mr. LUMPKIN, was adopted :

*Resolved,* That the President of the United States be requested to cause to be laid before this House (if it should not be deemed incompatible with the public interest) such information as will clearly exhibit what has been done under the act of the 9th May last, appropriating fifty thousand dollars, to enable the President of the United States, to carry into effect the articles of agreement and session of the 24th April, 1802, between the United States and the State of Georgia. And also, what has been done with a view to promote the aforesaid object, as provided for and pointed out in the 5th article of the treaty of May last, entered into with the Cherokee Indians who reside west of the Missouri River.

And especially, what number of Indians (located within the boundary of Georgia) have accepted of the provisions of said treaty, as contained in the aforesaid article, and what are the principal obstacles which tend to prevent the Indians located in Georgia from acceding to the terms proposed to them in said treaty.

As also was the following resolution offered by Mr. OWEN, on the same subject.

*Resolved*, That the President of the United States be requested to cause to be communicated to this House, such information as may be in the possession of the Government, not heretofore communicated, in relation to the claims of Georgia, embraced or intended to be embraced in the provisions of the treaty of 1825, held at the Indian Springs, with the Creek Indians; and any information in his possession in relation to the claims of said nation of Indians for such surplus, if there should be any, of the sum stipulated in said treaty, as an indemnity to Georgia.

*Tuesday, Jan. 13.*—The following resolutions, submitted yesterday, and, in conformity with the rule of the House, laid upon the table for one day, were severally considered and adopted:

Presented by Mr. MOORE, of Alabama.

*Resolved*, That the Secretary of the War Department be directed to furnish this House with any report, made by any commanding general of the army, during the year 1826, on the subject of the improvement, better organization, discipline, and regulation of the Militia of the United States, which may not have been heretofore furnished, and published in connection with this subject.

Presented by Mr. SPRAGUE,

*Resolved*, That the Secretary of War be directed to inform this House, what beneficial effects, if any, have arisen or are likely to arise from the daily use of spiritous liquors by the army, and whether the consequences of that practice have not been, and will not be injurious; and particularly of its influence upon the health, morals, and discipline of the soldiers.

Presented by Mr. WILDE,

*Resolved*, That the Secretary of War be instructed to lay before this House, copies of any compacts or agreements, made between the Creek and Cherokee tribes of Indians, under the direction, or with the assent of the U. States, establishing the boundary lines of their respective hunting grounds, within the limits of the State of Georgia, prior to the year 1821; and also copies of any correspondence between the War Department and the agent for Indian Affairs, touching the same, which has not heretofore been communicated.

The following resolution proposed yesterday by Mr. WEEMS, and laid upon the table was again submitted by him to-day, in a modified shape:

*Resolved*, That the Committee on the Public Lands be instructed to enquire into the expediency of appropriating so much of the Public Lands, or of the proceeds of the sale of those lands, (not found to clash with any previous contract, for the payment of the Public Debt,) for the advancement of Common Schools, in the thirteen old States, equivalent to what has been granted to those States that have been introduced into the Union since the adoption of the General Government, so as to equalize the advantages to each and all the States; seeing that the aforesaid lands have been acquired, as a common property, by the joint expenditure of the blood and treasure of the whole Union. It was ordered to be laid upon the table.
